

**Dear Merchant,**

**I am really excited about a new product in the market that I have been buying online and I hope you will start carrying it! Cracked Nut Butter is a unique protein and digestive enzyme fortified nut butter that is taking the organic and natural food world by storm! It was developed by two personal trainers and nutrition coaches for their clients looking for a sweet, healthy satisfying snack in the middle of the day without the excess sugar!**

**They have been featured in The Omaha World Herald, Paleo Magazine Online and PaleOmg.com in the past year! Please contact Perfect 10 Nutrition LLC about carrying their whole body health engineered products and help me and many customers like me purchase Cracked Nut Butter right here in your store! Please find their contact information below and let them know that I sent you!**

**Please help me to "Get my own jar!"**

**Sincerely,**
